

# **Laurel Girls State - A Commitment to the Future**

## **An American Legion Auxiliary Program**

### **INTRODUCTION**

**Laurel Girls State is a program in Americanism. It began in 1944 with the goal of increasing the understanding of our democratic form of government, and has been one of the American Legion Auxiliary's major programs.**

**Laurel Girls State aims are as follows:**

- **To prepare girls of high school age to live in a world where government touches our lives in many ways.**
- **To teach the principles of democracy in a representative form of government.**
- **To provide an atmosphere for teaching the duties, privileges and responsibilities of citizenship.**

### **WHAT IS GIRLS STATE?**

**Laurel Girls State is a mythical state whose government functions in the same manner as the State of Connecticut.**

**Most of each day at Laurel Girls State is spent on learning the political process starting with town government and finishing with the state government. The delegate should come prepared to spend the entire week discussing politics in its varied forms. She will be placed in a party, either Nationalist or Federalist, and expected to participate in campaigning, party platforms, and bill writing.**

**While the program has many speakers in the field of politics, the bulk of the time is spent by the girls experiencing the process. They will elect officials and conduct town/city meetings. Each girl is expected to participate at some level.**
